PROFESSIONAL SUMMARY

Aspiring AI & Machine Learning Engineer pursuing a Bachelor of Computer Applications (BCA). Strong foundation in Python, SQL, React.js, Node.js, Object-Oriented Programming, and DBMS. Experienced in developing academic software projects and passionate about Machine Learning, Generative AI, and solving real-world problems through data-driven applications.

TECHNICAL SKILLS

Languages: Python, C, JavaScript, SQL

Frontend: React.js, HTML5, CSS3

Backend: Node.js, REST APIs

Database: MySQL

Core CS: OOP, DBMS, Data Structures (Fundamentals)

Tools: Git, GitHub, VS Code, Netlify, Vercel

Currently Learning: Machine Learning, NumPy, Pandas, Scikit-learn, Generative AI

PROJECTS

College Management System: Built a Python CRUD application to manage student records, improving data organization and retrieval.

Exam Pattern Analyzer: Developed a web application to analyze examination trends.

Student Grade Calculator: Created a Python application to calculate marks, percentages, and grades automatically.

Number Guessing Game: Built an interactive Python game using random number generation and user input.

EDUCATION

Bachelor of Computer Applications (2024–2026), Bundelkhand University, Jhansi

Intermediate (2021): 71.5% | High School (2019): 70%

CERTIFICATION

Object-Oriented Programming – Great Learning (July 2025)
